Ida Maree

Australian artist Ida Maree has had quite a musical journey. From the dance clubs of the Gold Coast, to the theatres of Sydney, and into Black Gospel Churches of Melbourne, Houston, DC, Birmingham, LA, her travels and singing have encompassed the true path of a musician searching for the music in her life.

Her debut album *Saving Grace* was acclaimed as The Album of the Year by Australia's leading Radio Charts, best known for the success of her songs *Saving Grace* and *Butterfly*. While visiting Nashville in 2014, Ida came into contact with Grammy nominated producer Billy Smiley (WhiteHeart, Johnny Cash, Clay Aiken, and The Newsboys), and they formed a partnership bringing her *songs and writings* to the forefront of music in 2020.

With Billy coming from Detroit carrying the sounds of Motown and Stevie Wonder in his soul he brought in a great cast of young musicians and engineers who are shaping the Nashville landscape. Mixed by veteran Billy Whittington (Be Be and Ce Ce Winans, Denise Williams, and Michael W Smith) the project has come full circle to the national release of *Chapter 2*, slated for a September, 2020 release.

"The journey in the last 2 years of my life has been literally turned upside down and back; laced with heartbreak, musical completeness, sorrow, fear and the unknown in a new Chapter 2 of my life. To see the world plunge into a dark place at the beginning of 2020 has made all of these songs that much more impactful for anyone who might hear it". Ida states. *So many people are relating to the messages and the songs. I get emails all the time from saying how much the music has connected with them. Every line in every song speaks to me and my life."*
